THERMODEXIA®

LESS FAT.
MORE DEFINITION.

Simultaneous Neuromuscular Emissions and
Radiofrequency for a new approach to body transformation.

MADE IN SPAIN
MADE FOR YOU

WONDER VIGOR

Wonder Vigor is a professional aesthetic platform designed to act on the three fundamental elements of the body silhouette: muscle, fat and skin.

In 25-minute sessions, it simultaneously treats up to three body areas. An intensive technology designed to reshape body contours, reduce localized fat and strengthen the body's muscular architecture.

MUSCLE TORSION: PROTECTION & POWER

Wonder Vigor improves muscular performance in the treated area, helps reduce abdominal inflammation and promotes faster, more visible toning and slimming.

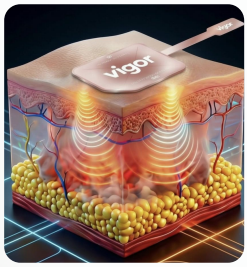

- Localized Fat Reduction
- Deep Radiofrequency
- Helical Muscle Activation
- Non-Invasive Technology

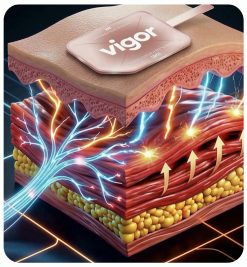

RADICAL FAT REDUCTION [RF + NMS]

Wonder Vigor operates with THERMODEXIA®, our exclusive and patented technology, unique in the world. It combines deep, controlled Radiofrequency with helical muscle contractions, strengthening the muscles and promoting localized fat reduction, all through a comfortable and non-invasive experience.

FOUR AESTHETIC GOALS

Wonder Vigor integrates four specific programs: Muscle Toning, Localized Fat Reduction, Skin Improvement and Reduction of Abdominal Volume associated with inflammatory conditions.

Wonder Vigor encourages recurring treatments through programs of one or two sessions per week. It provides differentiation by combining technology-driven muscle conditioning, fat reduction and body contouring. Its automated protocols facilitate the creation of treatment packages and memberships, reduce operational intervention and allow centers to increase their treatment capacity, always under the supervision of the responsible professional.

MUSCLE BUILDING & LONGEVITY

Technology: Helical neuromuscular emissions and bipolar radiofrequency

Number of muscle groups: 3

Depth of action: 25 centimeters

Programs: 4 programs

Consumables: Adhesive electrodes

Results: From the second week

100% HANDS-FREE TREATMENT

TECHNICAL SPECIFICATIONS:

- RF Frequency: 300 kHz
- Pulse Width: up to 1400 µs
- 3 Body Areas
- Output Power: 60 W
- Electrode Surface Area: 25 / 35 cm²
- Unassisted Procedure: Tablet-Controlled
